MAYAN CYCLORAMA

RACCE424

These event spaces are beautifully decorated to resemble an ancient Maya setting. The room features stone wall facades with intricate carvings, illuminated by red lighting to create a dramatic effect.

Designed to resemble an ancient Maya environment. The event consists of a pyramid stone-like structure covered with green vines and foliage, creating an overgrown, ancient ruin-like appearance. Combining with the structure, there are two fiberglass carved-stone texture figures resembling Mayan warriors. Making an immersive ancient mayan temple ambience.

LABNÁ ACCESS

RARCO007

- Ancient mayan rock texture and style
- Modular decoration
- Steeles not included
